THREE YEARS OF MISERY

Mrs. Burnside Escaped an Operation by Taking Lydia E. Pinkham's Vegetable Compound.

Mahoningtown, Pa.—"For three years I suffered untold misery every month, and had to stay in bed the first two or three days. I also had a displacement and other ailments peculiar to women. I became so weak and run down I could scarcely walk across the floor.
"The doctor told me I would never be well unless I would undergo an operation, but I was advised by my mother to take Lydia E. Pinkham's Vegetable Compound and after I had taken four bottles I am strong and well. I have got others to take your medicine with the same good results and they cannot say enough for it."—Mrs. J. A. BURNSIDE, Mahoningtown, Pa.

Thousands of unsolicited and genuine testimonials like the above prove the efficiency of Lydia E. Pinkham's Vegetable Compound.
Women who suffer from those distressing ills should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.
If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

HOUSE CAT IS BLAMED

Pussy Is Charged with Conveying Infection of Infantile Paralysis

SPRINGFIELD, Mass., Aug. 13.—The officials of the Springfield health department believe that they have traced the source of poliomyelitis, popularly known as infantile paralysis, to common house cats.

The department has discovered well-developed cases in cats and will send a number of them to Boston for observation by experts.
The fly has been held responsible for poliomyelitis contagion, but the health department believes that the burden will be shifted to the house cat.

An Adult Attacked.
SACRAMENTO, Cal., Aug. 7.—One of the first cases of infantile paralysis reported to the state board of health wherein an adult is the victim was noted in a telegram received today from Los Angeles. The man attacked is John McCurren, 20 years old, a painter. More than 150 cases of infantile paralysis have been reported from Los Angeles in the last few weeks.

Exodus of Children.
SAN FRANCISCO, Cal., Aug. 8.—The epidemic of infantile paralysis in Los Angeles at the present time caused Charles Stevens, chief boarding officer at the custom house, to cut short his vacation, which he intended spending in the south. Stevens returned to San Francisco with his wife and little son yesterday. Stevens says hundreds of families have left the city during the last few days and that many small children have been sent out of the city by their alarmed parents.

M. M. O'SHAUGHNESSY HIGH IN ENGINEERING

SAN DIEGO, Cal.—M. M. O'Shaughnessy, who for the last six years has been chief engineer for the Southern California Mountain Water Company of this city, and under whose guidance the system was constructed, announced today that he will accept the offer made him by Mayor James C. Rolph of San Francisco to become consulting engineer for that city.

The position is really that of City Engineer, but the charter provides that the city cannot employ non-residents and hence he cannot assume the title until the charter is amended. O'Shaughnessy, will assume his new duties September 1 on which date the resignation of the present City Engineer will become effective.

As City Engineer O'Shaughnessy will in the next few years be called on to construct additional water systems to cost in the neighborhood of \$50,000,000. He is one of the best known engineers on the Pacific Coast having followed his profession in the West for twenty-seven years.

The attention of Mayor Rolph was called to him when O'Shaughnessy recently served on the board of consulting engineers which determined the cause and remedy of the big leak in the Twin Peaks dam of the San Francisco city system. Before coming to San Diego to construct the Spreckels system, he superintended the construction of four immense government dams in the Hawaiian Islands.

MICROBE OF CANCER DISCOVERED IN PARIS

PARIS, France, Aug. 13.—Dr. Gaston Odin of Paris today declared that he had solved the mystery of cancer by discovering its microbe.

Doctor Odin's discovery is vouched for as authentic by Professor Matruchol, head of the cryptographic botany section of Sorbonne university, and is hailed by Professor Lannois of the school of medicine as a remarkable discovery.

Doctor Odin says he not only found, but succeeded in isolating and cultivating the microbe, which is a blood microbe. It is a parasitical organism, transforming, developing and reproducing itself in a variety of forms passing imagination. No pronouncement on the discovery has yet been made by the medical profession generally, pending the receipt of further details, but Doctor Odin is confident a serum he has prepared will do for cancer what Jenner's vaccine has done for small pox.

One of the most startling statements made by Doctor Odin is a warning against contact with cancerous people, saying cancer is as infectious as any other microbe disease.

THE PIG POKER.

A pig poker is a dealer in pigs—not the large and portly fellow whom you meet now and again at the country market, with a cargo of a hundred or more pigs of all ages, shapes and sizes for sale, but a little man, who, for the most part, carries his wares upon his back, or occasionally perhaps in a wheelbarrow. A "poker," of course, is a pocket or sack, and a pig poker is one, therefore, who deals in pigs carried round from place to place in a poke. The old proverb about the foolishness of "buying a pig in a poke" has its origin, of course, in this time-honored method of pig purveying.

THIS MEANS YOU.

There is one medicine that every family should be provided with and especially during the summer months; viz. Chamberlain's Colic Cholera and Diarrhoea Remedy. It is almost certain to be needed. It costs but a quarter. Can you afford to be without it? For sale by all dealers, Benson, Smith & Co., agents for Hawaii.
